Week 6 Term 4
9th Nov 2015

Mrs Sonja T. Sim
Principal Jerangle P. S.
Ph: 02 6454-3127

From the Principal's Desk

This term is certainly flying by and students are continuing to flourish in many aspects of the curriculum. They are preparing for the end of year presentation night and look forward to performing in front of an audience.

Students have been involved in our theme for the term by looking at the 5 major world religions. They have been using this theme to demonstrate their writing skills as well as writing articles for the newsletter. (see entries below).

Assemblies are going well on Wednesdays and Friday swimming is helping to improve the water sense of all students. We hope this warmer weather stays around for Friday to make swimming even more enjoyable.

The recent warm weather and lovely rain has created a boom in the grass growing at the school and we extend a big thank you to Peter Ewart who has been able to keep up with the mowing and maintenance around the grounds. Everything is looking in top shape.

The warmer weather has also increased the plants in the vegie garden and it seems the whole place is being taken over by potato plants. We will be looking up some recipes next year to use them in cooking.

Mrs S. T. Sim

Congratulations

A big congratulation goes to **Tom and Angus** who both gained a **Credit certificate in the English competition**. Well done boys!!!!!!

Reports and Portfolios

Student reports are being written and the portfolios are having the final touches made to them. Students are proud to show parents their work throughout the semester and look forward to taking them home on Monday 7th December. If you would like an interview regarding your child's progress, please make an appointment through the office.

Swimming

On Friday we went swimming. Myself and Tom got out early because we got too cold then we went on the bus. By Adam

On Fridays Jerangle school goes to swimming lessons. We have swimming teachers and two life guards. Every lesson we do something different, some days we do back stroke, some days we do bubble and breath, sometimes we do airplane and some days we do all of them. At the end of the day we go to the changing room and get changed before going home. It's the best sport ever.

By Darcy

Presentation Night

Our Presentation Night will be held on Monday 14th Dec at the CWA Hall at 6pm. All are welcome to share this wonderful evening with the school children and families.

Spectra Awards

It's now to wrap up the Spectra Awards so that the cards can be sent in for the certificate printing. Please send all cards back to school this week.

Woodwork

Every Monday afternoon the seniors do woodwork

with Dave while the juniors do some sewing. We have made a helicopter, a little sign and a wooden box. Only Adam, Angus and I got them all done because Abby, Tom and Darcy missed a day or two so they only did the helicopter and the box. Once Adam, Angus and I finished the helicopter we tested it out up the back. To use it you hold the handle and pull the string and the propeller flies up.

The easiest thing to make was the little sign all you needed to do was shape it and burn something into it. The two other things were a bit harder to make but we had Dave there to help us make them. For the rest of this term we are doing sewing and the juniors are doing woodwork.

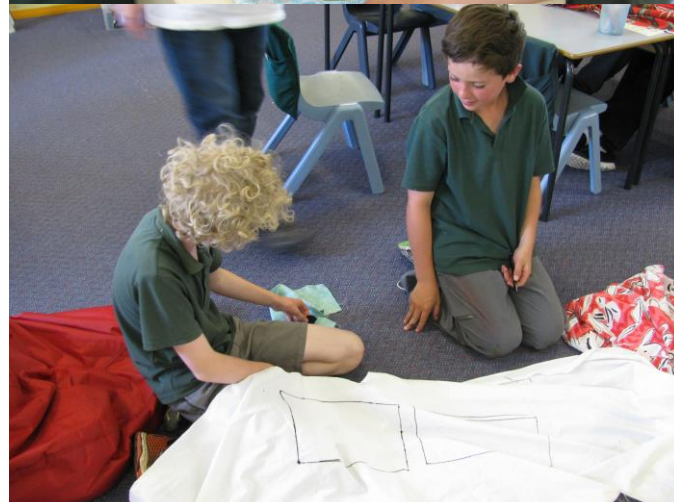

By Angela

Last Monday we did woodwork with our teacher Dave who is very funny. While we were doing woodwork the juniors are in the classroom sewing. In woodwork we made a box to put stuff in. First we got the sides and drilled holes in them so it would be easier for the nails to go in. Then we did the same with front and back. Finally we got a lid and sanded the front of it so it looks curved.

We also did other things like helicopters and name tags. It was very fun doing woodwork and now it is our turn to do sewing in the classroom I loved doing woodwork.

By Abby

Creative Writing story

He grabbed the magnifying glass with the golden handle and ran out of the door.

As he ran through the empty streets he could hear the cries of the people that are no longer alive.

He crossed lands, he crossed seas and a lot of other places looking for anyone who was still alive. He looked in shops and he looked in farms but no one was in sight.

He was on the beach and looking down at his arms in the sun when suddenly he bumped into a girl. They got married and all the people came back and the world was like it was now.

By Jess.

Science

This week at Jerangle there has been a lot of science experiments going on in the classroom. The junior students made a coin jump while everyone mixed up some cleaning product for the tables and window. WOW look at that shiny glass.

Activity Day at Nimmitable

Students are looking forward to the activities day at Jerangle this Thursday. They will be joined by all the other Monaro small schools and will be able to get up close and personal to a police car, ambulance and fire truck.

Merit Awards

Congratulations to all those who have been working hard to achieve Merit Awards and Certificates. This week we celebrate the achievements of the following members of the school.

28th Oct 2015

Merit Certificate

Jack Flett
